FRANK SHEPHERD,

LAWYER. CHEBOYGAN MICH.

The Spring Election.

The Catamaran combination are flattering themselves that because they were successful in electing the governor, and capturing six out of eleven Congressmen, that they are going to have a walk-over this spring and elect their candidates for judges of the supreme court and regents. If anything was demonstrated last fall, it was the fact that the Republicans were in a majority in the state over the combined forces of the Demo-Greenback combination. This being so, it is only necessary to get out the full strength of the Republican vote this spring to secure the success of the ticket. Whatever causes may have worked last fall to defeat the head of the Republican ticket, and all know the relentless war waged against Mr. Jerome and this by those who should have supported him, the falsehoods circulated against him, no such causes can serve the purpose of the combination this spring. The Republican ticket is conceded to be exceptionally strong in the character, ability, and fitness for the positions of the candidates. The are all well known men, while inquiries have to be made as to who their opponents are. Mr. Champlin, the nominee against Austin Blair, being the best known of any on that ticket.

Detroit Every Saturday, a non-political society paper, while speaking favorably of Mr. Champlin says of the rest of the ticket:

Mr. Arthur M. Clark, the Democratic nominee for regent, is a wealthy Lexington lumberman. He is just the kind of a man that the board of regents does not need. In point of usefulness he would be inferior to either of his Republican opponents. Mr. Sherwood is described by one Democrat as "a pompous lawyer," by another as "a pettifogger," and by a third as a second-rate man. There is abundant reason for the failure to nominate a really good candidate in the fact that a genuine Greenbacker and a good lawyer are opposite terms. Mr. Shipman excepted. The candidate for regent, Mr. Willett, is said to be a graduate of the University, but the University men in Detroit seem to know nothing of him.

The Republicans are willing to stand on the merits of their ticket, having no fears for the result if all will consult the best interests of the state and vote the ticket that will best subserve the interests of the people. If the Republicans will turn out and vote, there can be no question of the election of the Republican candidates.

Personal.

LEVI GRAY, of Mackinac was in the village this week.
